Dear Charley,

AVON DPF12 NBC/TICS FILTER NIOSH APPROVED PART NO 70010/20/F

With regard to your query in respect of the shelf life of the DPF12 filter, we are pleased to confirm that when packed in its clear plastic pack with the cap and plug in place, the filter has a shelf life of 10 years. In fact, the clear bag will allow you to see the actual expiration date which is clearly marked on the Niosh label. The recent consignments of filters which we have shipped to Chicago and Los Angeles will show an expiration date of 04/2013.

Any more questions then please call me.

Kind Regards
