

The **National Center for Biomedical Research and Training (NCBRT)** at **Louisiana State University** invites you to join us for a unique training opportunity. The NCBRT is offering the following Department of Homeland Security (DHS) certified course:

# Instructor Development Workshop

## MGT-323

This course primarily serves to give instructors insight into adult education and enhance the instructional skills and styles of instructors. The course focuses on best teaching and training practices, and it enhances understanding of instructor competencies developed by the International Board for Standards for Training, Performance, and Instruction (IBSTPI®). This course emphasizes the active, learner-centered style of delivery and student experience. Instructors of the course model how to facilitate classroom discussions and motivate and encourage participants. Participants in the course will reflect on their learning and have many opportunities for self-evaluation. The course follows a problem-based training model, focusing on providing performance, technical, and higher level skills instruction. Organizations that want courses delivered with professional polish could benefit from this professional development opportunity to ensure proficiency in training methodology and strategy.

**Professional Disciplines:** Animal Emergency Services, Agricultural Safety, Citizen/Community Volunteer, Emergency Management, Emergency Medical Services, Fire Service, Governmental Administrative, Healthcare, HazMat, Information Technology, Law Enforcement, Public Health, Public Safety Communications, Private Sector/Corporate Security and Safety Professionals, Public Works, Search and Rescue, Transportation Security

The target audience for the **Direct Delivery** version of this course is experienced emergency response professionals including:

- Law enforcement
- Fire
- Hazardous materials personnel
- Personnel in the agricultural industry
- Emergency medical service personnel

- Emergency planners
- Subject Matter Experts (SMEs) involved in the planning, preparation, response or recovery phases of disaster or emergency response
- Healthcare professionals
- Former military personnel
