Re: Teaming Agreement Discussion

Dear Mr. Page,

This letter is a follow up from our meeting on April 24, 2007 at your office. As discussed with ILEAS last year and additional discussions this year, the National Center for Biomedical Research (NCBRT/ACE) and Training and the Academy of Counter-Terrorist Education at Louisiana State University is researching the potential of establishing regional training sites across the country. As you are aware, NCBRT/ACE has been conducting national training since 1998 and has been recognized by Congress as a primary training arm for the Office for Grants and Training within the United States Department of Homeland Security.

NCBRT/ACE is interested in continuing our discussions with ILEAS regarding this potential teaming agreement with establishing a regional training site providing various training opportunities and validation exercises for not only the state of Illinois, but also those within the Federal Emergency Management Agency Region 6. It is conceived that NCBRT/ACE would potentially enter into an agreement with ILEAS with respect to hosting various courses developed by NCBRT/ACE as well as providing space to accommodate an office(s) and storage.

It is our intention to progress further with our discussion regarding this teaming agreement and the benefits for both our organizations. We see this as an opportunity to enhance the products and services we provide to our nation as well as supporting the mission of ILEAS.

Again I want to thank you for your hospitality and information provided to me this past week regarding the facility, former Champaign County Nursing Home, and ILEAS continued support for further discussions with respect to ILEAS interest in team. If you have any questions, please do not hesitate to contact me.

Respectfully,

/s/ Steven T. Williams
