Dear IMT Richter,

On behalf of Naval Station Great Lakes, please accept my deepest gratitude for providing law enforcement support during the installation's Lockdown incident on Friday, January 24, 2020.

The safety and security of our people is my top priority. It is also a top priority of mine to make sure that the Navy is an integral part of the community and a good neighbor. Your agency's support made it possible for Naval station Great Lakes to reopen the mainside of the base in a timely and safe manner.

Please know that I appreciate everything you do in the community on a daily basis. I also appreciate the time and effort it took to come to our assistance.
